

The Blazed Trail

CHAPTER XXII.

FOR several days this impression satisfied him completely. He did not attempt to analyze it; he did not even make an effort to contemplate it. Curiosity, speculation, longing—all the more active emotions remained in abeyance, while outwardly for three days Harry Thorpe occupied himself only with the needs of the Fighting Forty at Camp One. He was vaguely conscious of a great peace within him, a great stillness of the spirit.

Little by little the condition changed. The man felt vague stirrings of curiosity. He speculated aimlessly as to whether or not the glade, the moonlight, the girl, had been real or merely the figments of imagination. Almost immediately the answer leaped at him from his heart. Since she was so certainly flesh and blood, whence did she come? What was she doing there in the wilderness? His mind pushed the query aside as unimportant, rushing eagerly to the essential point. When could he see her again? His placidity had gone. That morning he made some vague excuse to Shearer and set out blindly down the river. And so, without thought, without clear intentions even, he saw her again. It was near the "pole trail," which was less like a trail than a rail fence.

When the snows are deep and snowshoes not the property of every man who cares to journey, the old fashioned "pole trail" comes into use. It is merely a series of horses built of timber, across which thick Norway logs are laid about four feet from the ground to form a continuous pathway. In summer it resembles nothing so much as a thick one rail fence of considerable height, around which a fringe of light brush has grown.

Thorpe reached the fringe of bushes and was about to dodge under the fence when he saw her. So he stopped short, concealed by the leaves and the timber bore.

She stood on a knoll in the middle of a grove of monster pines. There was something of the cathedral in the spot. The girl stood tall and straight among the tall, straight pines like a figure on an ancient tapestry. She was doing nothing—just standing there—but the awe of the forest was in her wide, clear eyes.

In a moment she stirred slightly and turned. Drawing herself to her full height, she extended her hands over her head, palm outward, and with an indescribably graceful gesture bowed a ceremonious adieu to the solemn trees. Then, with a little laugh, she moved away in the direction of the river.

At once Thorpe proved a great need of seeing her again. In his present mood there was nothing of the awe-stricken pence he had experienced after the moonlight adventure. He wanted the sight of her as he had never wanted anything before. The strong man desired it. And finding it impossible he raged inwardly and tore the tranquillities of his heart.

So it happened that he ate hardly at all that day and slept ill and discovered the greatest difficulty in preserving the outward semblance of ease which the presence of Tim Shearer and the Fighting Forty demanded.

And next day he saw her again, and the next, because the need of his heart demanded it and because, simply enough, she came every afternoon to the clump of pines by the old pole trail. But now curiosity awoke and a desire for something more. He must speak to her, touch her hand, look into her eyes. He resolved to approach her, and the mere thought choked him and sent him away.

DESPERATE LINES

Colombia Will Take to the Field to "Preserve Her Face."

WILL RESIST PANAMA

Hard-Pushed Bogota Government Will Send an Expedition Against the New Republic.

Same Action is Necessary to Prevent the Downfall of Colombia.

Panama, Jan. 30.—News comes from Bogota that inasmuch as Generals Reyes and Cavallero have assured Colombia that the United States will object to her landing forces only in the canal zone, the Colombian government intends to send an expedition against Panama.

The only explanation of this news from Bogota is that the government of Colombia is compelled to take some

GENERAL REYES.

steps to prevent its downfall, which is said to be imminent, as President Marroquin has lost all the prestige he ever had. There is much speculation in Bogota as to the outcome of this movement should it be put through.

Colombian newspapers are complaining that it cost more than \$15,000,000 in paper money (a Colombian dollar is worth about seven-tenths of an American cent) to move the troops Colombia has today at Titumati, on the Gulf of Darien, from Cartagena to that point. These men are estimated at from 2,000 to 4,000, and at one time they were well supplied with provisions.

Joaquin Velez, Perez y Soto and other enemies of Marroquin have been imprisoned for alleged conspiracy. People arriving from Colombia declare the situation in that country to be growing worse every day.

A Receiver Wanted.

Laporte, Ind., Jan. 30.—Application has been made in the federal court by the Royal Trust company of Chicago for the appointment of a receiver for the Chicago & South Shore Railway company, operating an interurban electric railway between Laporte and Michigan City, and for the foreclosure of the mortgage held by it, securing an issue of bonds for \$282,000. The application for the appointment of a receiver will be resisted. Judge Anderson issued a temporary restraining order against the company, forbidding the officers from disposing of property pending the hearing for a receiver on Feb. 4. The road is valued at \$400,000.

Cut Off From the World.

New Harmony, Ind., Jan. 30.—The Washburn river here is rising rapidly. The ice is heavy and fills the river from bank to bank. Old citizens say it is the heaviest ice they ever saw along the Washburn river. Some people living on Fox Island have not yet been able to bury John Stewart, who died last Saturday. There is no undertaker on the island and it may be days and perhaps weeks before an undertaker can reach the island. Over a hundred people live on the island. Conditions along the river are most threatening.

Steam Pitted Against Death.

Chicago, Jan. 30.—General Henry Strong of Chicago is racing across the continent from California in the hope that he can reach Chicago in time to see his wife alive. Mrs. Strong was stricken with paralysis, and her physicians regard her death probable within a short time. General Strong left Santa Barbara on a special train which he chartered as soon as he received a telegram telling him of Mrs. Strong's illness.

Three Sentenced to Death.

Denver, Col., Jan. 30.—Fred Arnold, one of the burglars who shot and killed Mrs. Amanda Youngblood, was found guilty of murder in the first degree and sentenced to be hanged. His two companions were recently convicted and sentenced to death.

San Domingans Still Fighting.

Paris, Jan. 30.—A dispatch from San Domingo says that after desperate fight the insurgents recaptured the town of San Pedro de Macoris.

THE MAN WHO KNOWS

Secretary Taft Has Definite Policy for the Philippines.

Washington, Jan. 30.—The Philippines for the Philippines will be the keynote of the policy of Secretary Taft toward the far Eastern archipelago. In almost the last speech he made before leaving the Philippines for home, he reiterated this keynote, which he first sounded when he was inaugurated governor of the Philippine islands. This speech has been published by the insular government in an official form and has just reached the war department. In it Gov. Taft declared that this doctrine did not exclude the encouragement of American enterprise or the American investment of capital in the Philippines, for the reason that nothing, not even education or a free form of government, "can make more for the elevation and civilization of the Philippine people than the investment of an American capital in the material development of these islands."

Official Washington last night gave a cordial welcome to William H. Taft, the incoming secretary of war, at a reception given in his honor by retiring Secretary Root. There was a large attendance, including all army and navy officers in Washington above the rank of captain, the members of the cabinet, the committees on appropriations, military affairs and the Philippines of the senate and of the house. The reception was a stag affair and there were no speeches.

Case Dismissed.

Miller, S. D., Jan. 30.—Hattie Pilcher, a school teacher, who has been under arrest, charged with complicity in drugging Wilbur Quirk and attempting to rob a drugstore on Jan. 12, has been discharged after a hearing. Miss Pilcher on the night of the attempted robbery was wounded in the back. She told several stories as to how she received her wound, but the prosecution was unable to connect her with the Quirk case.

An Extinct "Volcano."

Lexington, Ky., Jan. 30.—William Castle, deputy United States marshal, arrested Presley Crow and John Hildebrand on a "moonshine" raid and returned here. The prisoners were operating on Sugar Loaf mountain in Rowan county and it is now believed that their "moonshine" still accounts for the reports of an active volcano which recently alarmed residents of that vicinity.

Private Inquiry Dropped.

Chicago, Jan. 30.—Satisfied with the finding of the coroner's jury that investigated the Iroquois theater fire, the independent prosecution started by Arthur E. Hull, whose whole family perished in the disaster, was formally abandoned in court. There will be an investigation of the Iroquois disaster by a special grand jury.

Death of Julius Conitz.

Laporte, Ind., Jan. 30.—Julius Conitz, formerly a Laporte county banker, who failed three years ago for \$100,000 while financing railroads in Michigan, is dead of hemorrhage of the brain, at Blue Grass, N. D. His assets netted 50 per cent and he has since paid nearly all of his remaining indebtedness.

Duelist Charged With Murder.

Paris, Jan. 30.—As a result of a judicial inquiry into a duel between Charles Ebelot and Henry Lantier, which was fought on Dec. 16, Ebelot, who killed his antagonist, will be charged with homicide and tried.

MEMBERS WORRIED

Movement to Cut Off Congressmen's Extra Mileage Causes a Discussion.

IS THERE LAW FOR IT?

Mr. Littlefield Takes the Ground That Second Appropriation for Mileage is Unwarranted.

Contents There Was No Interregnum and Consequently But One Session of Congress.

Washington, Jan. 30.—The house is considering whether members of congress are entitled to be paid mileage a second time. The controversy arose on an item in the urgent deficiency bill providing for two payments of mileage for senators and members of the house on account of the extra session which merged into the regular session. A point of order was raised by Mr. Maddox (Dem., Ga.) against the payment of mileage a second time, and he was supported by Mr. Littlefield (Rep., Me.), who contended that there had been no interregnum and consequently but one session of congress and there is no authority of law for a second appropriation for mileage.

The interest manifested in the question was shown by the fact that there were few empty seats on either side of the chamber when the mileage item was reached. Mr. Littlefield received close attention and was plying with numerous questions as to his interpretation of the law and the constitution.

Consideration of the amendment increasing the appropriation for the expenses of the district land offices precipitated a discussion on the subject of alleged land frauds. Mr. Mondell (Rep., Wyo.), author of the amendment, in urging an increased appropriation, called attention to the increased volume of business. Robinson (Dem., Ind.) asked if the increased business was not due to fraudulent entries. Mr. Mondell replied that he had no knowledge to that effect, and said he believed the reports of fraud to be greatly exaggerated by persons whose interest it is to have such reports circulated. The provision in the urgent deficiency bill to defray the expenses of the international exchange commission, and another provision authorizing the consolidation of customs collection districts, were stricken out.

IN THE SENATE

President Asked for Information on Panama Question.

Washington, Jan. 30.—The senate has adopted the resolution introduced by Mr. Culberson of the Democratic caucus which calls on the president to state whether the senate has been supplied with all the facts bearing on the controversy of Panama. The vote on the resolution was unanimous, but there was a roll-call on the amendments suggested by Mr. Cullom for the Republican side of the chamber, calling for the information only in case the president considers it not incompatible with the public interest to supply it. This amendment was adopted by 29 to 20, all the Republican senators present voting for the amendment and all the Democrats except McNary, who voted with the Republicans, casting their votes against.

Ignored Court's Order.

Chicago, Jan. 30.—E. N. Nockels, secretary of the Chicago Federation of Labor, has been cited to appear in court to show cause why he should not be punished for contempt of court. Nockels was called before a grand jury to give evidence concerning alleged acts of lawlessness committed during recent strikes in Chicago, and he was told to bring the books and records of the Federation of Labor with him. He refused to bring them and told the grand jury that he had no intention of obeying the order. He was thereupon cited to appear before Judge Gary.

The Postal Trial.

Washington, Jan. 30.—The third week of the postal trial has closed and the indications now are that the case will go to the jury about the end of next week. August W. Machen, the former general superintendent of the free delivery system, probably will take the stand Tuesday and the present intention is for the other defendants also to testify, though this plan may not be carried out.

Berlin, Jan. 30.—Seven girls belonging to a cooking school, at Darmstadt, are dead and six others are dying of poisoning, which resulted from eating canned beans and meat. A medical inquiry into the occurrence is making.

LINCOLN LEAGUE

Coming Meeting Excites General Interest Over the State.

Indianapolis, Jan. 30.—The formal call for the coming convention of the Indiana Lincoln league, which will be held at Evansville Feb. 12 and 13, has just been issued by President R. Harry Miller, of Fairmount, and this has aroused new interest among Republicans here in the coming meeting. Indianapolis always sends a large delegation to the Lincoln League gatherings, and this year will be no exception. The Marion club is taking the lead in organizing a party to attend the convention, and it is probable that several hundred volunteers will be secured to make the trip. Indianapolis probably will present a candidate for president to the convention. Willard McGuire of this city has all but announced himself as a candidate, and in case he should get out of the way it is more than likely that W. A. Walker, president of the Marion club, will get into the race. The men are the best of friends and will not antagonize each other, however. McGuire is understood to have first claim on the position of any Indianapolis man, as he first talked of being a candidate, and Mr. Walker will not do anything until Mr. McGuire fully makes up his mind what he wants to do. With McGuire out of the way Mr. Walker probably will be put forward by the Marion club as a candidate.

Much Banded Divorce Case.

Shelbyville, Ind., Jan. 30.—Janette Cummins has filed a motion in the Shelby circuit court asking for a new trial in the divorce case of William E. Cummins vs. Janette Cummins. The case was tried here the last term of court, and was venue from Hancock county. This makes the fifteenth time it has been in the different courts.

EASY WORK

"Love lightens labor," the saying runs, and in a sense it is true. But even love cannot lighten labor or make it easy for the woman who is in constant suffering from inflammation, bearing-down pains or other womanly diseases. The one thing that can make work easy for women is sound health, and Dr. Pierce's Favorite Prescription is the thing that will give sound health to sick women. It cures womanly diseases which cause weakness, and cures other ills which are the result of womanly diseases.

"Favorite Prescription" makes weak women strong, sick women well.

Accept no substitute for the medicine which works wonders for weak women. Dr. Pierce's Common Sense Medical Adviser is sent free on receipt of stamps to pay expense of mailing only. Send 21 one-cent stamps for the paper-covered book, or 31 stamps for the cloth-bound volume. Address Dr. R. V. Pierce, Buffalo, N. Y.

AT LAST Indianapolis thinks she has the army post cinched. Let us hope that no more complications will arise for the readers of the Indianapolis paper are getting weary of this subject.

The Hon. Arthur Poe Gorman will see to it that there is a plank in the next Democratic national platform demanding popular election of senators. He has been busily engaged lately in taking the job of naming a colleague for himself off the hands even of the Maryland Democratic legislative caucus, his candidate for the seat being the most prominent corporation attorney in the state of Maryland.

THE imports of the United States for 1903 aggregated in value a billion dollars, being \$26,000,000 above the highest mark previously reached. The exports amounted to \$1,484,608,127, nearly twenty millions greater than the total for any preceding year. Our internal trade reached thirty billions. It is this condition of affairs that Democratic leadership would have us turn for another chase after the markets of the world like that of 1893-4-5, which, it will be remembered, had its finish in the soup-house.

Political Gossip.

IN SUNNY FLORIDA.

H. W. Godfrey Writes Interestingly From the Peninsular State.

JACKSONVILLE, Fla., Jan. 26, 1904.
E. A. REMY,
DEAR SIR:—You are already aware that Mrs. Godfrey and I have been sojourning for some time in this mid-winter land of sunshine, flowers and bare-footed darkies.

All this is nothing new to us, having spent several winters in this balmy peninsula. But I see so many reminders of the good old times had on the waters of White river that I am prompted to write you.

The inland lakes here, all through south Florida, are full of black bass. The moment a hook is cast there is a regular battle among the bass for the privilege of biting first. Think of two men catching sixty-two of them in three hours, none of which weighed less than three and a great many of them four and five pounds. I saw them spread out on the grass in front of the "Indian River Hotel" at Rockledge. The bass in this tropical country are not as gamey as the bass of Hoosierdom but they are just as fine eating as those we had for dinner under the green bay-tree back of the Hamilton bluffs last July. I have reference to the day you and I, Bern Shepard and Judge Montgomery divided two small bass four ways while postmaster Masters devoured four large bass all alone and then like Alexander the Great wept because there was nothing left for him to annihilate.

The inlets from the ocean down the east coast near Palm Beach and Miami abound in Spanish mackerel which are very gamey. Miami is also the home of the Tarpon, or "silver king" as he is better known, every scale being as large or larger and equally as bright as "Uncle Sam's" silver dollar. This is the gamist fish of all. They are caught with ordinary reel and rod, possibly a little larger than Bern Shepard's outfit. The fishing is done from an ordinary skiff and when one is hooked he is allowed to lead you where he will, until he is worn out, gives up and is landed. Their weight is 125 pounds to 200 pounds; length five to six and a half feet; time required to land after being hooked is most usually one to two hours, during which time fisherman and boat is towed a distance of two or three miles, the tarpon often bouncing high above water in a desperate effort to shake the hook from his mouth. Wouldn't it be a sight to see Shepard hung up to such a "beauty?"

Wild ducks by the million, and tame enough for Joe Hodapp or Lynn Faulkner to get plenty of their favorite "pot shots" and kill a half dozen with each barrel.

This southern peninsula is a place of rest and benefit to persons of failing health, is not today what it was when we made our first visit here sixteen years ago. Then things were in their natural quiet and easy going condition. Now everything is a whirl of excitement, fit only for persons of robust health and plenty of endurance. The millions of H. B. Plant and H. M. Flagler have brought all this about, they having spent about sixty millions in railroads and fine hotels. In former days the hotels were not crowded and were carried on in a quiet homelike way. Then the railway coaches were not crowded, the engines used fine wood for fuel. Passengers could sit comfortably by open windows and enjoy the fumes from the pine burning in the engine. Now trains are over-crowded and you have to fight coal smoke and cinders just as we do up north. Hotels are taxed to their fullest capacity.

Persons wishing to make a trip here during the winter season, will probably get along all right if they are in good enough health to stand such a rush and jam as is daily seen on State street, Chicago. But if persons who are in declining health will stay at home and use one third the money it costs to come here in making themselves comfortable, they will most certainly live longer.

You may tell the crowd that I expect to return in time to participate in our annual spring duck shooting on the waters of good old Jackson county amid scenes and environments that always have been and ever will be dear to me.

Let us hope that we may all live to enjoy many returns of our annual summer fishing trips to the Hamilton bluffs before being called upon to start on that never ending journey down the silent river that flows on forever to the unknown fishing ground.

Yours very truly,
H. W. GODFREY.

Weak Hearts

Are due to indigestion. Ninety-nine of every one hundred people who have heart trouble can remember when it was simple indigestion. It is a scientific fact that all cases of heart disease, not organic, are not only traceable to, but are the direct result of indigestion. All food taken into the stomach which fails of perfect digestion ferments and swells the stomach, puffing it up against the heart. This interferes with the action of the heart, and in the course of time that delicate but vital organ becomes diseased.

Kodol
Digests What You Eat

Mrs. Loring Nichols of Penn Yan, N. Y., writes: "After eating, my food would distress me by making my heart palpitate and I would become very weak. Finally I got a bottle of Kodol and it gave me immediate relief. After using a few bottles I am cured."

Kodol cures indigestion, dyspepsia and all stomach disorders, and gives the heart a full, free and untrammelled action.

Bottles only, \$1.00. Size holding 2 1/4 times the trial size, which sells for 50c.

RUSSIA GIVES IN

Concessions Are Made to the Japanese Demands.
Washington, Jan. 30.—On the authority of the British ambassador at St. Petersburg the announcement is made that the Russian reply, which it is expected will be delivered today, is satisfactory. Although no further details are obtainable, it is assumed that the information of the ambassador is correct that Russia has made certain concessions and that Great Britain will prevail on Japan to accept them as satisfactory. The statement of the British ambassador went from St. Petersburg to the British legation in Tokio, where Mr. Griscom heard of it and cabled the news to the state department, the cablegram arriving over night.

WEEKLY TRADE REVIEW

The Weather Cut a Big Figure in Late Operations.

New York, Jan. 30.—Bradstreet's weekly review of trade today says: Weather conditions have been unfavorable throughout a wide area, and while in some instances helpful to retail trade, extreme cold or heavy snow have rather sharply checked spring trade and retarded transportation. There is a rather quieter feeling found also in several lines of speculation and industry. An exception to this is found in the South, which section, stimulated by almost undreamed-of cotton prices, is preparing to plant an enormous acreage. Spring trade, which was opening up actively in the Southwest, has been brought practically to a standstill for the time being by too weather.

Rather less satisfactory results come from the iron and steel trade. Southern iron is claimed to be unchanged, but Northern iron is weaker, foundry grades not being in active demand. The railroads are still out of the market for rails.

The Issues Drawn.

Indianapolis, Jan. 30.—The battleground staked out by operators and miners of western Pennsylvania, Ohio, Indiana and Illinois for their joint wage conference was shown by the demands presented by each side of house at the opening of the session. The operators' demand is a reduction of 15 per cent in the mining rate. The miners' demands are the present scale, run of mine basis and a differential of 7 cents.

Lion Attacks Keeper.

St. Louis, Jan. 30.—During an exhibition last night at the Zoological garden a lion known as Caesar attacked Keeper Steve Lawrence, who had entered the cage to make the lion perform some tricks. Caesar sprang at Lawrence and almost denuded him of clothing. He was fighting for his life when a policeman rushed in and shot the lion to death.

In Memory of McKinley.

New Haven, Conn., Jan. 30.—Men of distinction in the business, political and social life of Connecticut were guests last night at a birthday banquet of the McKinley association of Connecticut in Harmonie hall. Nearly 350 covers were laid, besides each of which was a carnation and a menu card bearing a likeness of William McKinley.

Creditors Will Not Lose All.

Elkhart, Ind., Jan. 30.—In the Indiana National bank case, Receiver Bosworth reports that there is \$68,000 on hand with which to pay the first 10 per cent dividend. There are, in round numbers, 2,500 depositors. Receiver Bosworth expresses the belief that at least 40 per cent will be realized by creditors.

Child Burned to Death.

Marion, Ind., Jan. 30.—In a fire which destroyed the home of Ora Elkins last evening, Will Elkins, four years old, was burned to death, and Basil, six years old, received fatal burns. Mrs. Elkins was seriously burned in carrying the children from the burning house.

Deadly Explosion in Hotel.

Rognonas, France, Jan. 30.—Six persons were killed and fourteen were injured by an explosion of gas in the cafe of the Hotel de France last evening. The hotel was partially wrecked.

A GRASSHOPPER RACE.

Mackay Won It Because the Professor Got the Wrong Bottle.

John W. Mackay was an early riser, a hard worker and, although exceedingly hospitable, was himself abstemious and could seldom be induced to play cards for money, and then for only nominal stakes. The only game that seemed to attract him was the "grasshopper races" with which the mining superintendents on the Comstock beguiled a portion of the noon hour while waiting for luncheon at the Savage company boarding house. Boys caught grasshoppers and sold them to the players at 25 to 50 cents each. Each player paid a fixed stake, ranging from \$1 to \$20, into the pool, and the man whose hopper made the longest jump captured the pool. On the day before Christmas it was agreed to celebrate that holiday with a pool the stakes in which were to be \$100 for each player. The terms were "play or pay," and at the instance of a German professor who was a superintendent of a leading mine each man was allowed to use any means that he might devise to stimulate his grasshopper. The professor was so full of his scheme to scientifically capture the \$1000 pool—for there were ten entries—that he communicated it to a young assayer who was not a grasshopper plunger. The professor had experimented and ascertained that a grasshopper that was touched by a feather dipped in a weak solution of aqua ammonia would jump for his life. The young man also experimented, and as a result he filled a bottle of the same size and appearance with cyanide of potassium and managed to substitute it for the other in the professor's laboratory. The next day, when the professor after much boasting about his scientific attainments dipped a feather in the substituted bottle and touched his insect with it, the grasshopper rolled over as dead as a salt mackerel, amid the roars of the crowd. Mackay's hopper won the big pool, and two widows, whose husbands had been killed in the Yellow Jacket mine, received a gift of \$500 each from an unknown source.—San Francisco Call.

Eating Worms.

All nations save the worshippers of Buddha eat the flesh of animals. Even the lowest and most disgusting to eye and palate find a home where they are welcomed. Worms and insects must furnish food and grace the tables not only of the poor, but of the rich. Think of the gourmet who praises the luscious woodsnipe, and still more the black mass from the inside that he carefully places on his toast and eats with a feeling akin to veneration! He is eating the worms that live in the snipe's intestines. Of equal value is the famous palm worm of the West Indies, which forms one of the best dishes of luxurious dinners. Its near relation, the grugru worm of Java, is said to be richer still and more delicate. Nor do costly silkworms escape the fate of all that is eatable. Freed from their cocoons and daintily dressed they are highly prized and largely swallowed by the people of Madagascar.

The Cob Pipe.

Corn-cob pipes are as old as the settlement of this country, and the probabilities are that the pilgrim fathers found the Indians sucking hollowed out cobs through reed root stems. There is a historical warrant for saying that Andrew Jackson smoked cob pipes and was fond of them. Tradition has it that after that famous dinner of sweet potatoes General Francis Marion proffered the British officer who was his guest a corn-cob pipe and a mole-skin pouch of sun cured leaf tobacco.—Savannah News.

How to Burn Gas Coke for the Best Results.

In order to burn Gas Coke satisfactorily, build your fire even and deep; remember, you cannot get or keep a good fire with Coke unless you do. Owing to its peculiar fractured and rough grain it does not pack so closely as hard coal and leaves more in spaces; to overcome this you must keep a deeper fire. After the Coke is well ignited, shut off the draft; if you do not want much heat, you can regulate your fire perfectly with the damper. Be sure to keep a good supply of Coke on the fire; you are not using as much weight of Coke as you would hard coal.

When leaving the fire for the night, put on plenty of Coke, and shut off the draft entirely, leaving a good bed of ashes on the grates to check the draft.

RAILROAD RUMBLINGS.

The early mail train from the north was nearly four hours late again today.

Brakeman Ed. Clendenen is taking a few days lay off on account of having a heavy cold.

Engineers J. B. Murphy, Roi Emery, Ted Lehan, Gus Mix and George B. Craig accompanied the remains of Henry Muster to Washington yesterday.

Engineer Ted Lehan returned from Washington this morning. He reports that the funeral of Henry Muster will be at Washington Monday morning at 9 o'clock.

The \$10,000 damage suit of George W. Messick, of Odon, against the Southern Indiana railway company is now on trial at Washington. Messick was injured while in the employ of the company.

The report reached here yesterday that Fireman Thompson who was on the engine with Engineer Henry Muster Thursday evening when the wreck occurred, had died at the hospital. But report comes today that he was alive yet this morning.

Smallpox at Henryville.

The outbreak of smallpox at Henryville has effected seven families in the Oakland neighborhood. The following are down with the disease in a mild form: Clara Sullivan, Bert Sullivan and wife, Louis Sullivan and Mrs. Charles Snow. The infection must have been brought in the clothing of Jack McCoombs who came from Benton where two or three members of his family have had the complaint. Dr. J. H. Walker has charge of the cases. All the patients have been quarantined and the schools ordered closed.

Will Write Insurance.

Clark B. Davis has purchased Chas. Leininger's insurance business and the same will be turned over to him the first of the week. Mr. Leininger will give his attention to other business. Mr. Davis will office in the Staudt building over Nicholson's cigar store. He will write both fire and life insurance.

Ministers' Meeting.

The Ministers' Association will meet in regular session on Monday at 10 o'clock in Dr. E. C. Jacka's study.

Lippincott's Magazine.

ALMA MARTIN ESTABROOK'S novel in the February number of Lippincott's Magazine more than confirms the belief in her ability to write a good long story. "Cousin Patricia," her present novel, is a tale of modern life. It entertains, preeminently, from beginning to end. Invention is clever throughout, and the climax shows a blending of strength and charm in the writing which is highly satisfying.

Arthur Symon's name is arrestive in the list of short stories. His contribution, called "Peter Waydelin's Experiment," shines with the human element as portrayed through a man who loved art "for art's sake."

The author of "That Mainwaring Affair," A. Maynard Barbour, writes a tale of love and a gold mine entitled "A Controlling Interest." Francis Howard Williams is the author of a lovely idyl of a golden wedding called "A Little Child Shall Lead Them."

NEW ELECTRIC LINE PROJECT.

Probability of the C. G. and R. Being Extended to Seymour.

There is a strong probability that Seymour will yet have an electric line on the east side of the river through Reddington and Azalia to Columbus and on beyond. Plans to that end are now being made.

Mr. C. N. Wilson, the chief promoter of the Columbus, Greensburg and Richmond electric line, which road is now assured beyond a doubt, proposes to build from Columbus on the east side of the river to Seymour and on south. It has never been his intention to stop at Columbus. The Columbus, Greensburg and Richmond Traction Company is next to the strongest electric railway company in Indiana. The company means business and has plenty of money back of it. Their plans to build to Seymour and on south will at once interest Seymour people.

Mr. Wilson will be in Seymour some time next week to meet and talk to our people of his plans. He will be given a cordial hearing and we believe his plans will find favor with Seymour people. Mr. Wilson is a man who has won the confidence and esteem of the people all along the line of C. G. & R.

Praised by Fellow Engineer.

Engineer Henry Muster who lost his life at Cullom's Station, five miles west of Cincinnati, was about 59 years of age. Henry Muster was a locomotive engineer in all that word implies. He was a man in whom the officers of the railway placed the most implicit confidence. The number of his friends was his entire acquaintance. He was generous and kind to a fault. The hand of charity was never extended to him with out receiving aid. Kind to everybody, an indulgent husband and father. Henry Muster was not rich in this world's goods but was rich in all the qualities that constitute true manhood. He was one, if not the most expert air brakeman in the employ of the B. & O. S-W. In fact he was authority on all parts of the machine that obeyed his command. Always ready and glad to impart information to the younger men, in such a clear and forcible manner, that he would stamp the knowledge in their minds to stay.

In the death of Henry Muster the railway company has sustained a severe loss, his friends a friend indeed, his family an irreparable loss. He died in the discharge of his duty. The pale boatman beckoned him in the most sudden manner, with perhaps only a warning of five seconds. On a sharp, short curve the iron monster met him. Maybe time to commend his spirit to God and breathe a blessing for his family and his friends.

Peace to his ashes.

The Abel Trial.

Friday afternoon the attorney's representing Cudwith Abel who was convicted of involuntary manslaughter filed and argued a motion to have the defendant discharged from custody on the grounds that the verdict is not included in the charge of murder and is the same as an acquittal. Abel's attorneys will contend that his act was not an involuntary one. The motion was over-ruled by the court and thirty days given to file a bill of exceptions.

A motion for a new trial will be filed tomorrow and argued the first of next term.—Franklin Star.

Board of Health Statistics.

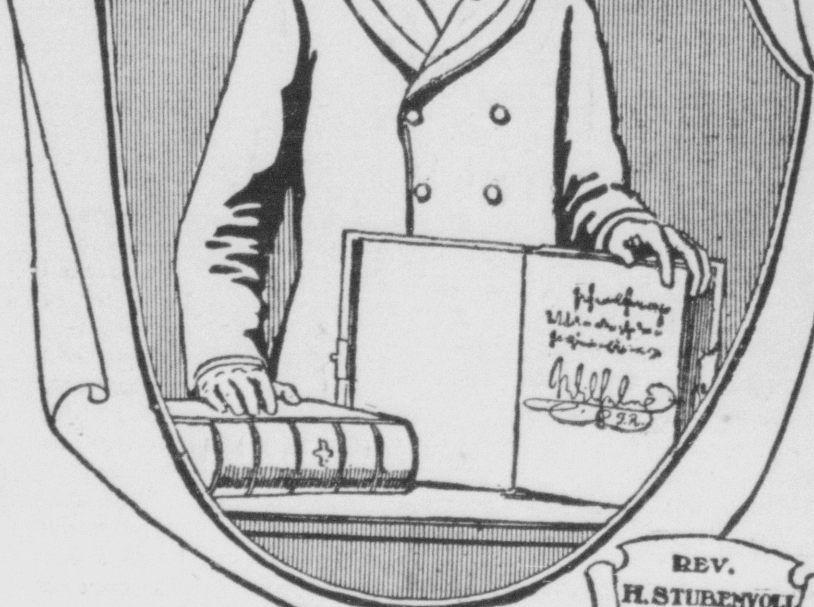

Dr. H. R. Kye, the local health officer has completed his report for the year 1903 to the state board and the statistics given shows that Seymour is a healthy city averaging with the best in the state. During the year 1903 there were 92 deaths in Seymour; 53 white males, 30 white females, 2 colored males and 7 colored females.

During the year there were 152 births in Seymour; 75 males and 77 females.

In 1903 in Seymour there were 18 cases of typhoid fever with 3 deaths. There were 6 cases of diphtheria with one death. There were 15 cases of scarlet fever with three deaths. There were 13 cases of measles and no deaths.

There was not a case of smallpox in the city during the year which is more than can be said of most any other city the size of Seymour in Indiana.

A PASTOR WHO WAS BEFRIENDED BY AN EMPEROR SAVED BY PE-RU-NA.

Rev. H. Stubenvoll, of Elkhorn, Wis., is pastor of the Evangelical Lutheran St. John's Church of that place. Rev. Stubenvoll is the possessor of two bibles presented to him by Emperor William of Germany. Upon the fly leaf of one of the bibles the Emperor has written in his own handwriting a text.

This honored pastor, in a recent letter to The Peruna Medicine Co., of Columbus, Ohio, says concerning their famous catarrh remedy, Peruna:

The Peruna Medicine Co., Columbus, Ohio.

Gentlemen: "I had hemorrhages of the lungs for a long time, and all despaired of me. I took Peruna and was cured. It gave me strength and courage, and made healthy, pure blood. It increased my weight, gave me a healthy color, and I feel well. It is the best medicine in the world. If everyone kept Peruna in the house it would save many from death every year."—H. STUBENVOLL.

Thousands of people have catarrh who would be surprised to know it, because it has been called some other name than catarrh. The fact is catarrh is catarrh wherever located; and another fact which is of equally great importance, is that Peruna cures catarrh wherever located.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, O.

Doctor CUPID.

One of His Prescriptions.

THAT Love sometimes cures disease is a fact that has recently been called to the attention of the public by a prominent physician and college professor. In some nervous diseases of women, such as hysteria, this physician gives instances where women were put in a pleasant frame of mind, were made happy by falling in love, and in consequence were cured of their nervous troubles—the weak, nervous system toned and stimulated by little Dr. Cupid—became strong and vigorous, almost without their knowledge. Love is not, however, the cure for all women. Many a woman is nervous and irritable, feels dragged down and worn out for no reason that she can think of. She may be ever so much in love, but Dr. Cupid fails to cure her. In such cases the body is not sound—the nervousness and other symptoms are telegraphed all over the body by the nerves (which is the telegraphic system of the human body) because the weak spot demands attention. In ninety-nine per cent. of these cases it is the womanly organism which requires attention; the weak back, dizzy spells and

black circles about the eyes, are only symptoms. Go to the source of the trouble and correct the irregularities, the drains on the womanly system and the other symptoms disappear. This can be done easily and intelligently. So sure it is the World's Dispensary Medical Association, proprietors of Dr. Pierce's Favorite Prescription, that they offer

A \$500 REWARD

For women who cannot be cured of leucorrhoea, female weakness, prolapsus or falling of womb. All they ask is a fair and reasonable trial of their means of cure.

Their financial responsibility is well known to every newspaper publisher and druggist in the United States, with most of whom they have done business for over a third of a century. From this fact it will readily be seen how utterly foolish it would be for them to make the above unprecedented and remarkable offer if they were not basing their offer on curative means having an unparalleled record. No other medicine than Dr. Pierce's Favorite Prescription could possibly "win out" as the saying goes, on such a proposition. But they know whereof they speak. They have the most remarkable record of cures made by this world-famed remedy ever placed

to the credit of any preparation especially designed for the cure of woman's peculiar ailments. This wonderful remedy, therefore, stands absolutely alone as the only one possessed of such remarkable curative properties as would warrant its makers in publishing such a marvelous offer as is above made in the utmost good faith.

\$3,000 FORFEIT

Will also be paid if they cannot show the original signatures of the individuals volunteering the testimonials below, and also of the writers of every testimonial among the thousands which they are constantly publishing, thus proving their genuineness.

"I want to tell you of the great improvement in my health since taking your 'Favorite Prescription,'" says Mrs. H. S. Jones, of Forest, N. C. "When I began its use I was a physical wreck and had despaired of ever having my health again. Could not sit up all day. I noted a great improvement before the first bottle was used. Was suffering with almost every pain that a woman is subject to; had inflammation of ovaries, painful and suppressed periods, and other symptoms of female disease. After taking six bottles of 'Favorite Prescription,' I felt like a new person. Can ride horseback and take all kinds of exercise and not feel tired."

Mrs. Effie Walls, of Chelsea, Mich., says: "It is with pleasure I write to you of the benefits I have received from Dr. Pierce's Favorite Prescription. For about two years I felt completely tired out; was thin in flesh, skin yellow, had no ambition. Some eight months ago I took a severe pain in my back. Had read so much about your 'Favorite Prescription' that I thought I would try it. I purchased one bottle and it helped me so much I have now taken over three bottles. My heart don't bother me and I feel well all the time. Your 'Prescription' is the best medicine ever tried. I wish I could get all sick and weak persons to try it."

Mrs. Martha D. Bruce, of Rochester, Wash., writes: "I will enclose the amount of stamps in payment for your valuable book 'Medical Adviser.' I prize it above books; I would not be without one. I also prize your medicines very highly for the good I have received. I am sure the 'Favorite Prescription' carried me through a critical period when I do not think a doctor could have saved me. I have recommended it to other sufferers far and near. I am so glad for such blessings as your medicines, and hope you may live long and enjoy the blessings of your labors and the sunshine of God's love. "If my testimony is any good to you, you are welcome to use it."

GREAT MEDICAL WORK, FREE.

Congratulations.

Mrs. John H. Cullon, Editor of the Garland, Texas, News, has written a letter of congratulations to the manufacturers of Chamberlain's Cough Remedy as follows: "Sixteen years ago when our first child was a baby he was subject to croup; spells and we would be very uneasy about him. We began using Chamberlain's Cough Remedy in 1887, and finding it such a reliable remedy for colds and croup, we have never been without it in the house since that time. We have five children and have given it to all of them with good results. One good feature of this remedy is that it is not disagreeable to take and our babies really like it. Another is that it is not dangerous, and there is no risk from giving an overdose. I congratulate you upon the success of your remedy." For sale by C. W. Milhous.

A Prisoner in Her Own House.

Mrs. W. H. Layha, of 1001 Agnes Ave., Kansas City, Mo., has for several years been troubled with severe hoarseness and at times a hard cough, which she says, "Would keep me in doors for days. I was prescribed for by physicians with no noticeable results. A friend gave me part of a bottle of Chamberlain's Cough Remedy with instructions to closely follow the directions and I wish to state that after the first day I could notice a decided change for the better, and at this time after using it for two weeks, have no hesitation in saying I realize that I am entirely cured." This remedy is for sale by C. W. Milhous.

WOMAN'S FIELD

In Indiana it Covers More Than the Accepted Occupations.

ACT AS STOCK RAISERS

Many Hoosier Women Have Charge of Large and Profitable Stock Farms.

Interesting Conditions Revealed by Indiana World's Fair Commission.

Indianapolis, Jan. 30.—A. C. Alexander, assistant secretary of the Indiana World's Fair commission, has made one discovery in connection with the work he has been doing in arranging the Indiana exhibit to be made at St. Louis this summer which surprised him not a little. This discovery is that at least fifty women are engaged in the work of stock raising and have the practical charge of large stock farms. The women in fact are among the largest stock raisers in the state, and their exhibits at the exposition promise to show up as well as the display made by any man who is engaged in the same business.

The discovery that so many women follow this occupation was a surprise to all the men engaged in the work of arranging the stock exhibit. "I knew that some women owned stock farms, but I had no idea the number was anywhere as large as it is," explained Mr. Alexander. "I am mighty glad we have so many, however, for the ladies are all showing the liveliest interest and will make fine displays."

ALL WORKED UP

Indianapolis Business Men Recognize Value of State Fair.

Indianapolis, Jan. 30.—Indianapolis business men are very much wrought up over the prospects that the state fair may be abandoned this year by the state board of agriculture, and the organizations of business men are getting ready to make a formidable protest to the board when it meets next week against allowing the fair to lapse even for a year. The Commercial club has already declared against abandoning the fair, and the Hotel Keepers' and Restaurant Keepers' association likewise has prepared a protest and designated a committee to present the matter to the board.

Members of the board, however, have taken the position that money talks. They have asked that a guarantee be given that the merchants here will put up a fund to insure the fair against loss. If the business men are so anxious for their own sakes that the fair shall be given they ought to be willing to share the responsibility of failure, board members say, and they are still waiting to hear the financial talk they so much desire.

None of the business men's organizations but the hotel men has shown any willingness to put up a guarantee, however, and the matter will probably have to be threshed out at length when the merchants will meet the board on Feb. 4.

Four Young Men Held.

Delphi, Ind., Jan. 30.—William Tyler, who was robbed while on his way home in the eastern part of the city, says that four men attacked him and beat him over the head with a "billy" and \$90 was taken from his pocket. He is an old man and his condition is serious, as he is suffering from concussion of the brain. Four prominent young men of the city have been arrested and are now in jail, as they have failed to find bondsmen for \$1,000 each. Tyler claims that the following young men committed the crime: Jack and Carroll Roberts, Ed Keefe and John Wolfe.

Chilling Reception for Tramps.

Terre Haute, Ind., Jan. 30.—This city will not be as attractive to tramps hereafter as it has been so far this winter, when they have filled the jail each night. The police last night, instead of giving a regular habitude of the jail a warm sleeping cell in that place, locked him in the hold-over room of police headquarters. There was no fire in the room and no downy bed, and the man had to walk all night to keep warm. He received no breakfast in the morning and was told to get out of town at once.

Rats as Bankers.

English, Ind., Jan. 30.—Ten years ago William F. Richards lost a pocket-book containing about \$500 in gold and nearly \$100 in paper money. Richards advertised for it, offered rewards for its return, etc., but it remained lost until Thursday. Richards was digging after a rat in his barn and came upon the remnants of the purse in the rat hole. The paper money was gone, but the gold coin was all there.

Incendiary at Elkhart.

Elkhart, Ind., Jan. 30.—Rags that had been saturated with kerosene were stuffed in a hole in the corrugated iron side of N. Borneman and Son's hardware house and touched off. A man 200 feet away saw the flash of fire and put out the blaze before any damage had been done. He saw the firebug run from the place. The firm has no clue.

Fred Sierp, sr., fell from a corn crib last Saturday, receiving some severe bruises. He is confined to his bed.

Geo. Rotert and Sim Henderson have announced their names as candidates for trustee of this township.

Zeb Prince was the lucky man who received the beautiful bedstead given away at Keach's store last Saturday eve. Mr. Prince also drew two dollars on a single guess at Wm. Reynolds, store last week.

Miss Lizzie Becker who visited her parents here returned to Louisville Monday.

Fred Haverer and family visited at Seymour over Sunday.

Thos. Lampin attended the dedication of the Christian church at Brownstown last Sunday.

Mrs. H. C. Mellencamp is able to be out again.

Miss Grace Sturgeon's condition remains the same.

It seems that tramps make frequent visits to this vicinity. Able bodied men should work for their bread and lodging. Men who look for work will soon find it. The next thing we can look for hold-up-men. It would be very good policy to secure some good blood hounds in the community.

STRINGTOWN ON THE PIKE.

Mr. and Mrs. Milford Stewart entertained in honor of the eighteenth birthday anniversary of their daughter Verna Tuesday evening. The surprise was complete but altogether reversed from the usual order of surprises. In some manner Miss Verna discovered the arrangements and planned a surprise for the company. Going to a neighbors she donned a disguise with the assistance of a lady friend and went to the party with her guests as one of them, no one suspecting the ruse until she unveiled.

Will Wetzel purchased a fine horse of Ed Bowman. Consideration \$100.

Walter Weaver returned to his home in Illinois Monday after a two week's visit with relatives here.

Arthur Wiesman is on the sick list.

Women as Well as Men Are Made Miserable by Kidney Trouble.

Kidney trouble preys upon the mind, sours and lessens ambition, beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased.

Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often if the urine scalds the flesh or if when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of Swamp-Root is soon realized. It is sold by druggists, in fifty-cent and one dollar sizes. You may have a sample bottle by mail free, also pamphlet telling all about it, including many of the thousands of testimonial letters received from sufferers cured. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper.
